

Kenyon College
Department of Mathematics
Tenure-track Assistant Professor Position
(Starting Fall 2009)

The Mathematics Department at Kenyon College invites applications for a tenure track position at the assistant professor level beginning in July 2009. A Ph.D. in mathematics or closely related field is required. The successful candidate will have the expertise and interest to teach and advise students interested in applied mathematics, broadly defined. The desire to develop upper-level courses in applied mathematics will be considered a plus. Our department has a strong commitment to student-centered learning. Thus, we will be particularly interested in candidates with experience in active learning techniques and/or laboratory based instruction.

Kenyon College, located on an idyllic campus in rural central Ohio, is ranked in the top tier of national liberal arts colleges and has a reputation for outstanding teaching and scholarship. We have a national student body of about 1600 students. The Mathematics Department is housed in a spacious and well-equipped building. We have seven full-time faculty members teaching the full range of undergraduate mathematics and statistics courses. The department offers a major in mathematics with concentrations in statistics and classical mathematics. We also contribute to an interdisciplinary concentration in scientific computing. Kenyon faculty members are expected to be excellent teachers who maintain strong research programs. Startup funds will be available, depending on the research needs of the individual. The typical teaching load is five courses per year. For more information about the mathematics department go to www.kenyon.edu/math.xml.

For full consideration applications should be submitted by November 1, 2008. We will, however, continue to accept applications until the position is filled. For instructions on how to apply visit: www.kenyon.edu/mathsearch.xml.

An Equal Opportunity Employer, Kenyon welcomes diversity and encourages the applications of women and minority candidates.
