Business Calc: Discussion Section 6 for Lecture Section B

MW 1:00 – 1:50 149 Coble Hall

Instructor: Jacob Hall

Office: B1 Coble Hall (Basement Room)

Office Hours: TR 11:00-12:30 and F 12:00-3:00 *or by appointment*

Email: hall17@illinois.edu

Webpage: www.math.uiuc.edu/~hall17/

Classroom Rules:

Yes

Ask Questions

Point out my mistakes (politely)

Bring your Textbook

Take Notes

No

Cheating

Sleeping

Tobacco

Phones*

Laptops**

HW/QZ:

Monday quizzes will cover the previous week's material (similar to HW problems). Quizzes and Homework are worth 10 points each. On homework, you will not be penalized for incorrect answers, but for all problems you must show all of your work to receive credit. You should view homework as the most important part of the course. If you don't practice calculus by doing your homework, you will certainly fail the quizzes and/or tests.

“Discussion?”

A Calculus Discussion section is normally about solving math problems. The primary purpose of the large lecture is to introduce new topics and concepts. In this class, we use the tools established in lecture to solve problems in a more personal and informal environment.

Calculus? EEEK!

Calculus can be tough. There are lots of things to remember, other things to figure out, and a multitude of calculations. But keep in mind that many students before you have successfully made it through, and so can you—just go slowly and practice, practice, practice!

* phones may be used only to record audio or video as a study tool

** laptops may be used to take notes only if you can show me your ability to take math notes on it (symbols, graphs,...)
