

## MATH 312 – HW# 2.5 (due immediately)

Please send an e-mail with Subject: MATH 312 to [jozef@math.uiuc.edu](mailto:jozef@math.uiuc.edu) containing the following information: name, phone number where you can be reached, e-mail address which you regularly check, year at UIUC, and your major.

I will create an e-mail list where I will post updates about the class, hints, etc. If you decide to drop this class, please let me know and I remove your name from the list.

Moreover, please consider the following:

1. Every graduate student who wants 1 unit credit for the course, please let me know so that I grade the HW-s accordingly.
2. We plan the first test somewhere in the last week of September. I suggest to have this test on some evening (90 min., in two overlapping shifts). Having help sessions on Mondays and Tuesdays, it is reasonable to have the test on Wednesday, Thursday or Friday. Could you kindly let me know which time slots after 5pm are BAD for you on Wednesday, Thursday or Friday during the last week of September ? Please try to be flexible as much as you can.

If you strongly disagree with this idea (i.e. you want to have this test in class), let me know as well.
