

Math 225 TL1 Introductory Matrix Theory
Tuesday and Thursday, 3:00 to 3:50 PM
314 Altgeld Hall

Course webpage: <http://www.math.uiuc.edu/~jrsnbltt/math225.html>

Instructor: Joseph Rosenblatt

Office: Illini Hall 232, phone: 333-3186, rosnbltt@illinois.edu

Office Hours: Tuesday and Thursday 10-11 AM, Friday 2-3 PM, or by appointment.

Homework Grader: Byungsuk Lee - lee688@illinois.edu

Examination Assistant Grader: Hannah Kolb - hkolb2@illinois.edu

We will have two midterms and a final. There will also be regular homework assignments that will be collected and graded. The homework for each week will be due on the Tuesday of the next week, starting with the second Tuesday of lecture.

The examinations in this course will be drawn from the homework and the material discussed in lecture. So, the best way to prepare for the examinations will be to attend the lectures, read the book, and do the homework.

Absences from exams will only be allowed without prior arrangement if the absence is due to illness. In case of an absence due to illness, you will need to document the reason for the absence by getting a note from your doctor or your clinic. In this situation, makeup examinations will be arranged on an individual basis.

Here is the planned schedule of examinations and breakdown on how your total points for the coursework will be determined. If there is a change in this schedule, it will be announced as far in advance as is possible.

Midterm I	100 points	September 29, Thursday
Midterm II	100 points	November 10, Thursday
Homework	100 points	Collected Weekly
Final	200 points	1:30–4:30 PM, Tuesday, December 13
Total	500 points	

Grading will be based on the total points available. The actual grade cutoff percentages will be decided at the end of the term. However, you can expect that at the least the following will hold: 90% and above will be an A or A-, 80% to 90% will be a B-, B, or B+, 70% to 80% will be a C-, C, or C+, 60% to 70% will be a D-, D, or D+.
