

## Homework Problems

Your solution is not complete without an explanation of the steps you made! You do not have to hand in this sheet of paper but you do have to use exactly the same information as is given below.

**Problem 24, p. 124** Draw a circle of radius \_\_\_\_\_ that is tangent to both the circle and line given below.

Problem 26, p. 124 Draw a triangle given the angle below and the altitudes to the other two angles.
