IN SCIENCE & SOCIETY

Behind the scenes of CSI: The science behind the Hollywood

Ganesh Reddy
Bruce Ramseyer

Crime Scene Unit
Champaign Police Department

Inverse Trig functions and blood spatter analysis. Are your fingerprints on the weapon? Is that dusting powder really necessary? That Alternate Light Source could be highlighting more than you think. Join us for a live game of Clue as we explore whether or not Ms. Scarlett did it in the Ballroom with the lead pipe.

The presentation will explore some crime scene investigation techniques, and the mathematics and science which allows these techniques to be used in court.

4:00 p.m., 314 Altgeld Hall, Tuesday, April 20, 2010
